

# Front End Fundamentals II

Lea Ann Bradford for Girl Develop It

# Bootstrap Navbar

# Bootstrap Navbar

Bootstrap provides a mobile responsive navigation

- <https://getbootstrap.com/docs/5.0/components/navbar/>

# Let's Develop It

Let's add the Bootstrap navbar to our Top 10 Cutest Animals web page

- <https://getbootstrap.com/docs/5.0/components/navbar/#nav>
- Use the copy and paste method to get started
- Or, for practice you can type in the navbar yourself
- Have your navbar link to sections of your page, or to each animal. It's up to you!
- See how the navigation looks at different breakpoints

Checkin Time!

# Let's Develop It

Let's continue working with the Bootstrap navbar

If you finish early, try adding the Bootstrap and the Bootstrap navbar to your resume site that we worked on last week.

- Try adding different color schemes to your navbar
  - <https://getbootstrap.com/docs/5.0/components/navbar/#color-schemes>
- Try adding drop-down menu to your navbar
- Try adding a branding image to your navbar
  - <https://getbootstrap.com/docs/5.0/components/navbar/#image>

Sharing Time!

Bootstrap allows you  
to build consistently  
styled websites fast.
